

Windows

=====

1) Download and save the Portable-VirtualBox.exe virtual machine installer to your Windows desktop from

<http://www.well.ox.ac.uk/Portable-VirtualBox.exe>

2) Double click the saved Portable-VirtualBox.exe file to extract the package to your Windows desktop

3) Enter the extracted Portable-VirtualBox folder and double-click the Portable-VirtualBox.exe application. Be patient, it can take a few seconds for the application to launch!

4) A single virtual machine called rnaseq should be listed. Select it and click the green Start arrow

5) The username/password for the virtual machine is
student / wellcome!

Mac OSX

=====

1) Download the virtual machine installer from

<http://www.well.ox.ac.uk/VirtualBox.zip>

The VirtualBox.zip file should decompress automatically to produce a VirtualBox folder in your Downloads directory

2) Copy the rnaseq.vbox, rnaseq.vdi and VirtualBox.dmg files to your desktop

3) Double-click the VirtualBox.dmg file to install the VirtualBox software

4) Double-click the rnaseq.vbox file to launch the virtual machine

5) The username/password for the virtual machine is
student / wellcome!
